

INTRODUCTION

This high induction diffuser promotes the rotation of room air, which increases mixing effectiveness. The 360° horizontal discharge pattern works great in VAV applications where turndown requirements exceed 50% of maximum airflow for properly selected diffusers. The unique style of this diffuser will provide an aesthetically pleasing appearance to any architectural application. Offered in with a variety of neck sizes, the RKSD can handle a wide range of airflows.

MODEL

RKSD - Round Swirl Diffuser

FEATURES
