# SURFACE MOUNT DIFFUSER INSTALLATION INSTRUCTIONS

# **OPTION #1 - SECURE DIFFUSER WITH A PLASTER FRAME (5HCF23/HCF23)**

## **OVERVIEW**

- Diffuser can be installed after all other ceiling components. Plaster frame is installed into the ceiling.
- Plaster Frame remains installed in ceiling, but diffuser can be removed without damaging ceiling opening.

#### INSTALLATION

- 1. Mount 5HCF23/HCF23 Plaster Frame into the ceiling using factory provided screws and clips.
- 2. Connect the flex duct to the neck of diffuser (or diffuser backpan if plaque face or removable core).
- 3. Move the diffuser through the 5HCF23/HCF23 Plaster Frame opening.
- 4. Lay the diffuser into the 5HCF23/HCF23 Plaster Frame. Attach diffuser face or core as necessary.

#### **NOTES:**

- \* For Prism, 1400 Series, 1450 Series diffuser models, the Surface Mount (F22) option ALWAYS includes aluminum mounting frame and will use this method of installation.
- \*\* KSD & DVD diffuser models MUST use a plaster frame due to core not being removable.

# SURFACE MOUNT DIFFUSER INSTALLATION INSTRUCTIONS

# **OPTION #2 - SECURE DIFFUSER TO SUB-FRAMING**

## **OVERVIEW**

- No extra accessories required for install.
- Only a single border visible from the room-side.
- Only applicable for removable face or core diffusers.

### **INSTALLATION**

- 1. Install support framing above ceiling opening. Framing should provide an opening that is 1 inch greater than the neck size and be positioned high enough to allow the edges of the of the diffuser/backpan to press firmly against the ceiling.
- 2. Remove core or face from diffuser.
- 3. Attach flex duct to the neck of the diffuser, then centrally position the diffuser in the framed opening, leaving a 1/2" gap on each side of the neck. Drive screws vertically through the backpan into the framing. (Screws and washers by others.)
- 4. Re-attach diffuser core or face to diffuser backpan.

# **OPTION #3 - SECURE DIFFUSER TO HARD DUCT**

## **OVERVIEW**

- No extra accessories required for install.
- Only a single border visible from the room-side.
- Only applicable for removable face or core diffusers.

### INSTALLATION

- 1. Remove core or face from diffuser.
- 2. The hard duct should be placed snuggly over the diffuser neck, fitting flush to the top of the backpan.
- 3. Drive 4 screws horizontally through the neck of the diffuser. (Screws and washers by others.)
- 4. Re-attach diffuser core to diffuser backpan.
